CONDUIT MOUNT

METE●R

1

Attach the conduit mount junction box to the desired ceiling position by using mounting hardware. Ensure that the conduit openings are oriented in the desired direction.

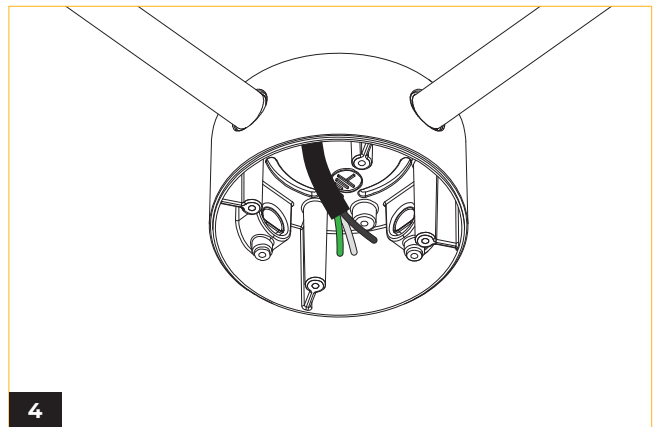

2

Remove the screws from the bottom of the junction box to release the conduit end caps.

3

Attach the conduit to the junction box. If the conduit has threads, screw it in firmly. If the conduit is threadless, reattach the screw from below to firmly secure the conduit in place.

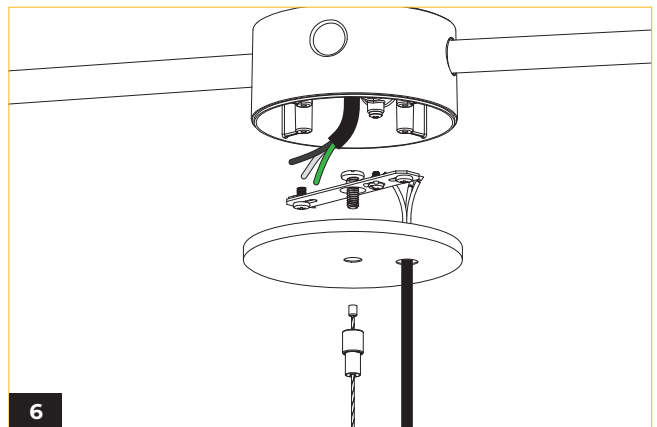

4

Thread the wires through the conduits.

5

For stem mount applications, please refer to the Stem Mount installation guide.

6

For adjustable cable applications, please refer to the Adjustable Cable installation guide.
