**Step 1**
Secure half ball with stem.

**Step 2**
Attach swivel crossbar to junction box (by others).

**Step 3**
Feed the safety cable and power cord through the stem and insert half ball joint into slot on swivel crossbar. Align the slot on ball joint with the tab on the swivel crossbar.

**Step 4**
Make electric connection in junction box. (See below)

**Step 5**
Install canopy cover by aligning the tabs on crossbar with slots in the cover.
Step 6
Clasp the hook through the aircraft cable loophole created.

Step 7
Clasp the hook onto the allocated bolt on the fixture mount.

Step 8
Loop the aircraft cable through the mounting corners and tighten the clamp by adjusting the screw. Ensure that the height is adjusted before tightening the clamp.

*Cable length provided is 1.7X of ordered stem length.*
