Ceiling opening: 11.6”
Oversize trim: 11.9”

Sloped Ceiling Adapter

Ceiling opening: 11.6”

Cut 11.6” opening in ceiling for sloped ceiling adapter
(same center as fixture frame opening)

Step 1
Detach trim and reflector from the fixture.

Step 2
Attach the sloped ceiling adapter over the trim and reflector.
Step 3
Push the trim and reflector back into the fixture by clasping the two fasteners on either side.

Step 4
Align the fixture frame correctly on the slope ceiling adapter such that the junction box side is pointing towards the side where the slope is at the lowest point.
