

IMPORTANT SAFETY INFORMATION READ AND FOLLOW ALL SAFETY INSTRUCTIONS

**FOR FIELD ASSISTANCE PLEASE CALL
+1-213-255-2060 #4**

- Before wiring to power supply and during servicing or relamping, turn off power at fuse or circuit breaker.
- All servicing or relamping must be performed by qualified service personnel.
- Product must be grounded to avoid potential electric shock or other potential hazard.
- Product must be installed at locations and heights, in a manner consistent with its intended use, and in compliance with electrical code and local codes.

SAVE THESE INSTRUCTIONS FOR FUTURE REFERENCE

Cut 11.6" opening in ceiling for sloped ceiling adapter (same center as fixture frame opening).

Detach trim and reflector from the fixture.

Attach the sloped ceiling adapter over the trim and reflector.

Push the trim and reflector back into the fixture by claspung the two fasteners on either side.

Align the fixture frame correctly on the slope ceiling adapter such that the junction box side is pointing towards the side where the slope is at the lowest point.

Do not install the slope ceiling adapter in the incorrect orientation.
